THE MINISTER OF INFORMATION AND BROADCASTING (SHRIMATI SUSHMA SWARAJ): (a) With the objective of the all round development of the film industry, the Government has already facilitated institutional and bank finance to the film production, as well as provided the film sector with fiscal incentives to create a climate of growth. The Indian participation in Cannes film festival and market was also successful this year and played a major role in focusing on Indian cinema and promoting India as a destination for shooting and post production facilities.

(b) and (c) State Governments were *inter alia* requested to consider rationalizing the rates of Entertainment Tax so that a uniform tax structure prevailed in the country. For this purpose, the question of bringing the subject of cinema on the concurrent list was also taken up with the State Governments. However, no consensus was arrived at in the matter. In the 24th Conference of States and Union Territory Ministers of Information held in New Delhi on 21.01.2001, this issue was deliberated. In pursuance of the recommendations of this Conference, a Committee was set up for Development of the Entertainment Sector, to suggest the policy framework both at the Centre and in the States for realizing the potential of the Entertainment Sector. One of the issues discussed in this Committee was the question of rationalizing Entertainment Tax rates. As a result of the deliberations in the Committee, it has been decided to recommend that all States/ Union Territory Administrations fix a ceiling of 60% on entertainment tax.
